## OBJECTIVE

As a dedicated Flutter Developer, my goal is to leverage my expertise and passion for mobile app development to contribute to innovative projects. With a strong foundation in Flutter framework, I aim to create efficient, user-friendly, and visually appealing cross-platform applications. I am committed to staying updated with the latest technologies and methodologies in mobile development to deliver high-quality solutions that meet the needs of users and exceed client expectations. My objective is to continuously grow and learn in this dynamic field while making meaningful contributions to the success of the projects I am involved in.

---

## PROFESSIONAL EXPERIENCE

Mar 2024 - Present

**Digital Upgraders LLC** - remote

**Flutter Developer**

At Digital Upgraders LLC, I worked as a Senior Flutter Developer. My role involved leading a team to develop mobile applications using Flutter. I collaborated with designers and backend developer to ensure smooth integration and functionality. I implemented advanced features like real-time updates and offline support, optimizing performance for better user experience. I also mentored junior developers and actively contributed ideas in meetings and code reviews.

### Responsibilities:

- Collaborated closely with designers and backend engineers for smooth integration.
- Implemented advanced features like real-time updates and offline support for better user experience.
- Optimized app performance for speed and responsiveness.
- Mentored junior developers and actively contributed ideas in meetings and code reviews.

**DataCrypt** - remote

Feb 2023 - Feb 2024

**Flutter Developer**

As a Flutter Developer at DataCrypt, I had the opportunity to contribute to the development of secure mobile applications utilizing Flutter framework. My role was pivotal in ensuring the seamless integration of robust encryption techniques and user-friendly interfaces.

**Responsibilities:**

- Conduct performance analysis and optimization to ensure smooth functionality and responsiveness of applications.
- Manage codebase effectively using version control systems like Git, facilitating collaboration and ensuring code integrity.
- Perform comprehensive testing and debugging to identify and resolve software defects, delivering high-quality, bug-free applications.
- Stay updated on the latest developments in Flutter and mobile app development technologies to continuously improve skills and knowledge.

**Blue Horn Technologies - onsite****Nov 2021 - Jan 2023****Flutter Developer**

At Blue Horn Technologies, I served as a Flutter Developer, contributing my expertise to the development of innovative mobile applications. My role involved collaborating with multidisciplinary teams to create solutions that aligned with client requirements and market trends.

**Responsibilities:**

- Develop Flutter-based mobile applications from scratch.
- Integrate external APIs and services into Flutter projects.
- Collaborate with UI/UX designers to create user-friendly interfaces.
- Optimize application performance and conduct code reviews.
